EDUCATION

Aditya College of Engineering and Technology, Surampalem	2020 - 2024
• Bachelor of Technology in Computer Science and Engineering	CGPA: 8.28
Narayana Junior College, Rajahmundry	2018 - 2020
• Intermediate	CGPA: 9.54
Bhashyam E.M High School, Rajahmundry	2017 - 2018
• Class X	CGPA: 10.0

WORK EXPERIENCE

Programmer Analyst – Bilvantis Technologies	Nov 2024 - Jul 2026
- Designed and implemented RESTful APIs using FastAPI, including request validation, routing, and error handling, with PostgreSQL for data storage. - Developed automation scripts for regression and functional testing using Selenium, Tosca, and Playwright (Python). - Improved workflow efficiency and test automation processes, ensuring reliable application performance.	

PROJECTS

Growstack AI	Dec 2024 - Jul 2026
- Developed UI and API automation scripts using Selenium, Java, and Cucumber; integrated TestNG and Extent Reports. - Performed regression, integration, and cross-browser testing; supported UAT and maintained defect reports. - Working on Playwright automation framework with Python to enhance test efficiency.	
Society Sphere Website	Dec 2025 - Feb 2026
Built backend APIs with FastAPI and PostgreSQL, including CRUD operations and real-time frontend integration.	
Sensory Stick: Smart IoT Navigation	Jan 2024 - May 2024
Developed IoT-based navigation system with Arduino, NodeMCU, and sensors; integrated voice alerts and cloud monitoring.	
Fake News Detection System	April 2024 - May 2023
Built ML model using Passive Aggressive Classifier with 92% accuracy; implemented data preprocessing and prediction pipeline in Python.	

CERTIFICATIONS

- Certified in **RedHat System Administration** by RedHat Academy. [Link](#)
 - MTA **Python** certified from Microsoft. [Link](#)
 - AWS Cloud Practitioner** by AWS. [Link](#)
 - Introduction to Agent Skills by **Anthropic**. [Link](#)
-

SKILLS

- Programming & Data:** Python, SQL, Pandas, NumPy. Data Preprocessing, ETL(Basic)
- Automation & Testing:** Selenium, Playwright (Python), Cucumber BDD, TestNG, Regression & Functional Testing
- Backend :** FastAPI, PostgreSQL, Git/GitHub, MySQL, Jira
