EDUCATION

Aditya College of Engineering and Technology, Surampalem Bachelor of Technology in Computer Science and Engineering	2020 - 2024 CGPA: 8.28
Narayana Junior College, Rajahmundry Intermediate	2018 - 2020 CGPA: 9.54
Bhashyam E.M High School, Rajahmundry Class X	2017 - 2018 CGPA: 10.0

WORK EXPERIENCE

Programmer Analyst – Bilvantis Technologies - Developed AI-powered candidate screening and JD match analysis workflows for the TalentIQ platform using AI agents and LLM-based solutions. - Designed and implemented RESTful APIs using FastAPI with PostgreSQL integration for AI-driven backend services. - Built automation frameworks using Selenium, Tosca, and Playwright (Python) to improve regression and functional testing efficiency.	Nov 2024 - Jul 2026
--	----------------------------

PROJECTS

TalentIQ – AI-Powered Candidate Screening & JD Match Analysis - Developed AI-powered candidate screening and Job Description (JD) match analysis using AI agents and LLM-based workflows. - Built AI-driven resume parsing, candidate profiling, matching, and ranking to assist recruiters in identifying suitable candidates. - Developed FastAPI backend APIs with PostgreSQL integration and implemented prompt engineering to generate recruiter recommendations and interview insights.	Jun 2024 - Present
Society Sphere Website Built backend APIs with FastAPI and PostgreSQL, including CRUD operations and real-time frontend integration.	Dec 2025 - Feb 2026
Growstack AI Developed UI and API automation framework using Selenium, Playwright (Python), Cucumber, and TestNG for regression and functional testing.	Dec 2024 - Jun 2026
Fake News Detection System Built ML model using Passive Aggressive Classifier with 92% accuracy; implemented data preprocessing and prediction pipeline in Python.	April 2023 - May 2023

CERTIFICATIONS

- Certified in **RedHat System Administration** by RedHat Academy. [Link](#)
- MTA **Python** certified from Microsoft. [Link](#)
- AWS Cloud Practitioner** by AWS. [Link](#)
- Introduction to Agent Skills by **Anthropic**. [Link](#)

SKILLS

- Programming:** Python, SQL
- AI & LLMs:** AI Agents, LLM Integration, Prompt Engineering, LangGraph, Embeddings, Semantic Search
- Machine Learning:** Scikit-learn, Pandas, NumPy, Data Preprocessing.
- Backend:** FastAPI, REST APIs, PostgreSQL, MySQL
- Automation & Testing:** Playwright (Python), Selenium, Cucumber BDD, TestNG
- Tools:** Git, GitHub, Jira
